

Learning objectives:

1. Explain the Mechanisms of Glomerular Disease

- Describe the pathophysiological mechanisms underlying major glomerular diseases.
- Identify the immunologic and genetic factors contributing to the development of glomerular diseases.

2. Apply Diagnostic Criteria and Methods

- Utilize appropriate diagnostic criteria and investigative tools for identifying various glomerular diseases.
- Interpret laboratory and histological findings to differentiate between types of glomerular diseases.

3. Develop Proficiency in Treatment Approaches

- Analyze current and emerging treatment strategies for managing glomerular diseases.
- Apply principles of individualized patient management based on disease severity and progression.

4. Evaluate New Developments and Perspectives

- Critically assess recent advancements in glomerular disease research, including novel therapeutic approaches.
- Examine future perspectives on disease mechanisms and treatment modalities in glomerular disease management.

5. Strategic Planning for Specialized Disease and Trial Centers

- Outline essential components and processes for developing specialized glomerular disease centers and clinical trial centers.
- Design improved patient pathways to optimize patient outcomes and streamline diagnosis and treatment of glomerular diseases.

These objectives aim to give participants a comprehensive understanding and the practical tools to improve care and research in glomerular diseases.

III. Department of Medicine

Program | December 1–2 2025

Glomerular Disease Preceptorship

The Event is funded by Novartis.

University Medical Center Hamburg-Eppendorf

ISGD Preceptorship at UKE Hamburg

DAY 1 | December 1, 2025

Time	Topic	Presenter
9:00 – 9:15	Welcome and Introduction	Prof. Dr. Tobias B. Huber
Session 1	Novel insights on glomerular diseases I	
9:15 – 09:40	IgAN	Prof. Dr. Nicola M. Tomas
09:40 – 10:05	Lupus Nephritis	Prof. Dr. Oliver M. Steinmetz
10:05 – 10:30	ANCA-GN	Prof. Dr. Christian Krebs
10:30 – 11:00	Coffee	
11:00 – 11:30	Complementopathies: C3G and IC-MPGN	Dr. Tilo Freiwald
11:30 – 12:00	aHUS	Dr. Sydney Gies
12:00 – 13:00	Lunch	
Session 2	Insights in pathology, new diagnostic measures and trials	
13:00 – 13:45	Hereditary GN	Dr. Fabian Braun
13:45 – 15:00	Practical nephropathology course: Complex case discussions	Nephropathology Faculty
15:00 – 15:30	Coffee	
15:30 – 17:00	Practical clinical course: Complex case discussions from participants	All: Moderated by Prof. Dr. Tobias B. Huber & Nephropathology Faculty
17:00 – 17:30	<ul style="list-style-type: none"> • Biobanking course • Future perspective tissue analysis 	PD Dr. Maja Lindenmeyer Prof. Dr. Ulf Panzer
17:30 – 18:00	General discussion and summary	All
Evening	Faculty dinner	

DAY 2 | December 2, 2025

Time	Topic	Presenter
8:20 – 8:30	Welcome back	Prof. Dr. Tobias B. Huber
Session 3	Novel insights on glomerular diseases II	
8:30 – 9:00	MCD & FSGS	Prof. Dr. Florian Grahammer
9:00 – 9:30	MGN	Prof. Dr. Nicola M. Tomas
9:30 – 10:15	Clinical Trials in Pediatric and Adult Nephrology	Dr. Jule Pinter
10:15 – 10:30	Coffee	
10:30 – 11:15	Nephropathology Quiz	Moderated by Nephropathology Faculty
11:15 – 12:30	Practical course – Autoantibodies	Dr. Anne Mühlig
12:30 – 13:30	Lunch	
13:30 – 14:30	Guided tour – Hamburg Center for Kidney Health	Dr. Elisabeth Meister
14:30 – 15:15	ISGD Centers of Excellence in GD	Laurel Damashek Prof. Dr. Tobias B. Huber
15:15	Meeting closing	Prof. Tobias B. Huber

Meeting Location:
N25 | HCTI
Seminar Room 0.02
Ground Floor
